HANDLING SOLUTION

G.S. International has been a trusted name in the rice milling industry since **1970**, specializing in the manufacturing, supply and export of advanced Rice Mills, Parboiling Plants and Drying Plants. With 1,250+ successful installations across India and overseas, we are committed to delivering high-performance, precision-engineered machinery, reliable after-sales service and international-quality standards backed by decades of industry expertise.

Reliable After Sales Service & Support

At G.S. International our work does not end after conveyor installation.

We provide dependable after-sales support to ensure your conveyor system continues running smoothly, safely, and efficiently. Our service team is available for on-call assistance whenever you need technical support, inspection, maintenance, or troubleshooting.

Our Service Includes

- . On-call service support after installation
- . Conveyor inspection and preventive maintenance
- . Breakdown and emergency support
- . Roller, belt, motor, gearbox, bearing, and spare-part replacement
- . Conveyor modification and capacity upgrades

FLAT CONVEYORS

Reliable conveying solution for smooth material movement.

- Belt Conveyors
- Modular Conveyors
- Cleated Conveyors
- Bend Conveyors

INCLINE CONVEYORS

Smooth material movement between different heights.

- Belt Conveyors
- Modular Conveyors
- Cleated Conveyors
- Bucket Elevator

SLAT & ROLLER CONVEYORS

Strong, stable movement for heavy products.

- Steel Slat Conveyors
- Modular Slat Conveyors
- Roller Conveyors
- Bend Conveyors

TRUCK LOADING CONVEYORS

Efficiently load and unload trucks with mobile conveyor systems built for faster, safer material movement.

- Hydraulic Conveyors
- Manual Conveyors
- Telescopic Conveyors

MATERIAL HANDLING SOLUTIONS

Complete Material Handling Solutions, From Conveyor Components to Industrial Equipment.

- Conveyor Parts
- Motors & Gearboxes
- Industrial Tanks
- Load Lifters

FLAT CONVEYORS

Discover Our Advanced G.S. International for efficient, smooth and reliable material handling, our conveyor systems are designed to optimize productivity across diverse industrial applications. Our comprehensive range includes flat belt conveyors, modular belt conveyors, cleated belt conveyors, incline conveyors, and customized conveying solutions—built to ensure seamless product movement with maximum durability and performance.

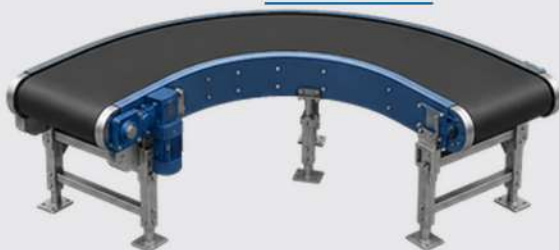

Belt Conveyor

Modular Conveyor

Bend Conveyor

Cleated Conveyor

INCLINE CONVEYORS

Efficient Incline Conveyor Solutions

Our incline conveyor systems are engineered to transport materials safely and efficiently between different elevations. Designed for maximum stability and space optimization, they are available in cleated, modular, and custom configurations to ensure smooth, reliable performance across manufacturing, processing, packaging and material handling operations.

Cleated Conveyor

Bucket Elevator

Incline Belt Conveyor

Incline Modular Conveyor

SLAT & ROLLER CONVEYORS

Reliable Slat & Roller Conveyor Systems

Our slat and roller conveyor systems are designed for the efficient handling of cartons, containers, components, and heavy-duty materials. Available in modular slat, steel slat, and roller configurations, they deliver smooth operation, exceptional durability and consistent performance across production, assembly, packaging, and warehouse applications.

Plastic Slat Conveyor

Roller Conveyor

SS & MS Slat Conveyor

TRUCK LOADER

MANUAL TRUCK LOADER

HYDRAULIC TRUCK LOADER

EXPANDABLE ROLLER TRUCK LOADER

ALL INDUSTRIAL NEEDS

ELECTRIC MOTORS

High efficiency motors for consistent and reliable performance.

VARIATORS

Robust and efficient gear solutions for every industrial application.

WORM GEARBOXES

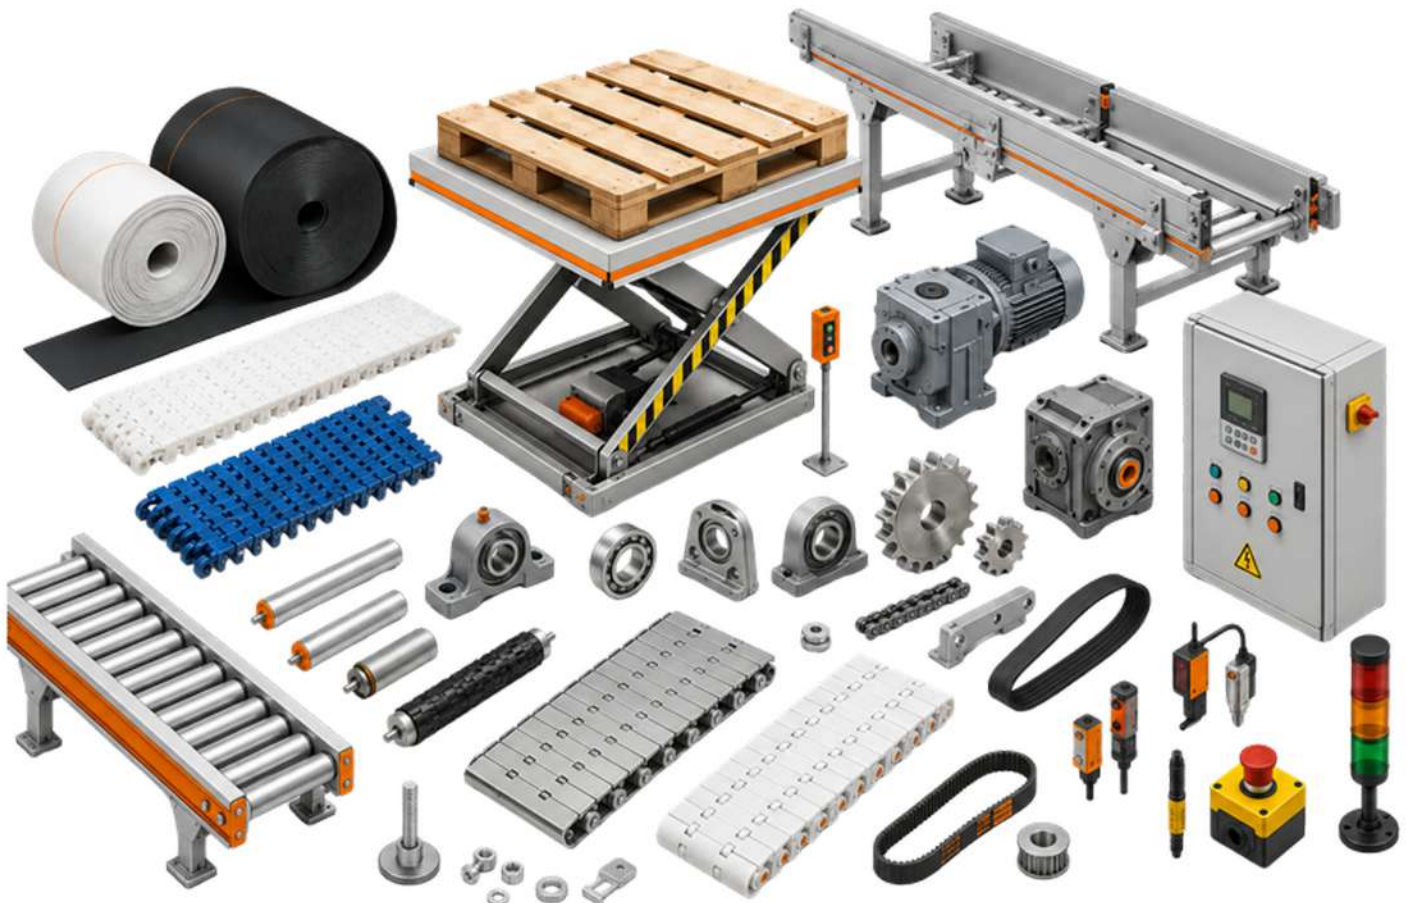

Compact, durable and built for heavy duty industrial operations.

Complete Conveyor Components, Available When You Need Them

To ensure quick delivery, efficient replacements and uninterrupted system performance, we maintain a comprehensive inventory of essential material handling and conveyor components. Our ready stock supports both new installations and ongoing maintenance requirements. Our inventory includes electric motors, gearboxes, conveyor belts, modular belts, roller chains, rollers, sprockets, bearings, pulleys, drive units, sensors, control panels, conveyor accessories and automation components — all selected to meet complete conveyor system requirements.

Everything Under One Roof

Your trusted source for complete material handling solutions. We offer high-quality conveyor systems and industrial components. Our products are designed for reliable and efficient performance. Ready stock ensures fast availability and quick dispatch. Quality, durability, and precision are our top priorities. We provide dependable support for every requirement. Helping industries improve productivity with confidence.

CONVEYOR COMPONENTS

Sprockets, Pulleys, Rollers, Guides & Hinges.

CASTER WHEELS

Relible, Durable and Smooth Mobility.

TANKS & VESSELS

Built for Strength. Designed to Perform.

MACHINE ACCESSORIES

Frames, Handles, Rollers & Adjustable Parts.

MOUNTING AND CONNECTOR COMPONENTS

Versatile components for secure assembly.

ADJUSTABLE TRIPODS AND LEGPADS

Stable Support, Adjustable Height, Maximum Reliability.
